Villanova University (B.A., 1997)

OVERVIEW

Jeffrey is the Assistant Director of the Casualty Department and a member of the firm's Board of Directors. Along with the Director, he is responsible for administrative oversight of the more than 250 lawyers among 19 offices.

Jeffrey joined Marshall Dennehey in 2008 and serves as the chair of the firm's PIP Litigation Practice Group, co-chair of the firm's Fraud/Special Investigation Practice Group. He focuses his practice on insurance fraud, bad faith and SIU related matters working with carriers both in the US and internationally.

For over 20 years Jeffrey has litigated insurance fraud and fraud-related matters on a national level. He acts as coordinating counsel to several insurance companies and helps clients develop strategies for defending complex litigation related to medical provider fraud, PIP and other emerging insurance issues. In addition, Jeffrey frequently consults with insurance carriers across the country to help integrate internal analytical platforms, create risk management protocol and conduct fraud-related investigations.

He has extensive training and background in provider-based investigations, underwriting fraud, policy avoidance, and staged accidents. Other practice areas include large loss property claims, coverage, general civil litigation, and appellate practice. He is an experienced mediator and coordinates investigations for companies in the healthcare, insurance, gaming, hospitality and other industries. As part of his practice, Jeffrey has worked with experts in the fields of cause and origin and bad faith as well as local and federal authorities.

Jeffrey possesses a unique understanding of the value of big data analytics in improving outcomes in the SIU environment. In 2017, Jeff was invited to join the Advisory Board of the BigData@Rutgers certificate program. In this capacity, he provides input on curriculum development to improve the program's offerings and value to the business community.

He frequently lectures on insurance fraud, bad faith and data analytics topics for a number of local and national insurance organizations. He also provides legal education seminars for clients and organizations across the country.

After graduating with a Bachelor of Arts degree from Villanova University in 1997, Jeffrey served as a legislative correspondent for United States Senator Arlen Specter in Philadelphia and Washington D.C., where he assisted in drafting legislation and conducting legal investigations. While attending Rutgers Law School, he served as a judicial extern to the Honorable Judge John A. Almeida, J.S.C. Burlington County-Civil Division, where he drafted tentative dispositions of the court and assisted in

SIGNIFICANT REPRESENTATIVE MATTERS

Defeated a bad faith action where plaintiffs sought treble and punitive damages based upon coverage denials.

Secured a voluntary dismissal regarding a \$750,000 fraudulently submitted homeowner's claim.

Secured a voluntary dismissal with respect to a \$375,000 homeowners/bad faith matter in which the insured submitted a fraudulent contents inventory.

Through the use of medical and forensic accounting experts, Jeffrey has also been successful in collecting on behalf of insurance carrier clients large sums of money improperly paid to fraudulent medical providers.
