RESULTS

New York Labor Law case dismissed.

New York Construction & Labor Law
July 25, 2019

We obtained summary judgment in New York County in a case where the plaintiff, a construction laborer, was struck by a rolling dumpster and sustained severe crush injuries to his left foot and leg. The plaintiff, the dumpster company and the subcontractors alleged our general contractor client was responsible for overall site safety. After obtaining billing and work records for the project, the client confirmed that it did not have any involvement in the project, and we moved for summary judgment.
