### ASSOCIATIONS & MEMBERSHIPS

Pennsylvania Bar Association

### OVERVIEW

Melissa Cochran focuses her practice on product liability, particularly asbestos litigation, where she represents and defends numerous and varied equipment manufacturers, outside contractors and supplier companies. Melissa's day-to-day asbestos practice includes overseeing and directly participating in all phases of litigation, from investigation to trial, throughout Western Pennsylvania. She also frequently participates in discovery in Eastern Pennsylvania, Delaware and Madison County, Illinois. In addition, Melissa serves as assistant national counsel for two manufacturing defendants, where her duties include coordination of discovery responses and communication with local trial counsel. Melissa's concentration on her asbestos practice enables her to provide clients with attentive, insightful and cost-effective strategies to combat the ever-evolving challenges of this fast-paced litigation.

As an experienced property and casualty attorney, Melissa represents clients in magistrate and arbitration level trials involving automobile accidents, premises liability claims and product liability suits. She is also actively involved in the investigation, discovery and pre-trial phases of complex multi-vehicle accidents, dram-shop and bad faith cases.

In 2000 Melissa graduated from Saint Vincent College in Latrobe, Pennsylvania where she earned her B.A. in English and political science. While attending Saint Vincent, she founded the Saint Vincent College Mock Trial Team and served as its captain. In 2003, Melissa earned her *juris doctor* from Duquesne University School of Law in Pittsburgh, where she was a member of the Trial Moot Court Honor Society. Melissa competed on the law school's Trial Moot Court team in 2002, when her team placed in the finals at the regional tournament, and in 2003, when her team placed in the semi-finals at the regional tournament.
