laude, 1987)

OVERVIEW

As Director of the Workers' Compensation Department, Michele oversees more than 35 attorneys throughout 10 of the firm's offices. She is also a member of the firm's Board of Directors. Michele has been with the firm for more than 30 years, and has been a shareholder in the Worker's Compensation Department since 1998. Michele represents third party administrators, insurance carriers and self-insureds, handling matters for construction companies, steel product and technology companies, hospitals, retailers, supermarkets, hotels, personnel corporations, landscaping contractors, assisted living facilities, townships, and manufacturers. In addition to her managerial and litigation responsibilities, Michele supervises client development efforts for the Workers' Compensation Department.

During her career, Michele has successfully defeated numerous claim petitions by presenting medical and factual evidence showing that the claimants did not sustain work-related injuries and/or corresponding disabilities. Her innovative legal strategies have included requesting the judge's presence at the employer's premises. In addition, Michele has argued numerous cases in front of the Workers' Compensation Appeal Board and has taken multiple cases to the Commonwealth Court.

In March 2022, Michele was inducted into the College of Workers' Compensation Lawyers, joining a select group of attorneys from across the country who have distinguished themselves in the practice of workers' compensation law.

Michele has lectured for various organizations, including the Claims & Litigation Management Alliance and Philadelphia Bar Association. She has published many articles and educational/training materials and has authored a chapter on workers' compensation in the prestigious *West Pennsylvania Forms and Commentary Employment Law* treatise.

Michele graduated *cum laude* from the University of Pittsburgh and the Widener University School of Law. Michele's success is due in large part to the care and dedication she exhibits to each client and the attention to detail shown in her work. It is these characteristics that have led many of her clients to look to her as a sounding board for business and legal advice.

Michele is active in the community, donating her time to a host of charitable organizations including Northern Children's Services and the American Cancer Society.

RESULTS

Termination Petition Involving Low Back Injury Successfully Prosecuted

Workers' Compensation
February 28, 2024

We successfully prosecuted a termination petition involving a low back injury for a delivery truck service company. Our expert opined that the MRI failed to reveal any acute or post traumatic findings, that the claimant only sustained a soft tissue lumbar sprain/contusion and the exam revealed no objective findings. The workers' compensation judge found our expert's opinions were well-supported and terminated all liability.

Expert testimony by Board Certified Orthopedic Surgeon key to workers' comp win.

Workers' Compensation
November 1, 2022

We successfully defended a claim petition on behalf of a well-known local hospital. The judge's decision was based upon a full recovery opinion by a Board Certified orthopedic surgeon who was found credible, competent and persuasive given his credentials and understanding of the claimant's extensive history, along with his review of post- and pre-injury records and diagnostic study films supporting no post-traumatic abnormalities.

Successful prosecution of termination petition on behalf of hospital.

Workers' Compensation
May 7, 2021

We successfully prosecuted a termination petition on behalf of a well-known hospital and defended the claimant's petition for review to expand the nature of the accepted injury. The injury was accepted as a right distal bicep strain, which included a partial tear that resulted in surgery. The claimant asserted the injury should be expanded to also include right carpal tunnel, right elbow sprain and trigger fingers.

Successful defense of workers' compensation appeal involving penalty/termination petition.

Workers' Compensation
August 24, 2020

We successfully defeated a workers' compensation appeal involving a claim penalty/termination petition on behalf of a worldwide youth adult development organization. A Medical Only Notice of Compensation Payable acknowledged liability for a skull contusion and denied any associated disability. The claimant alleged injuries to the cervical spine, head, eyes, a concussion and post concussive syndrome, resulting in total disability.

Successful prosecution of termination petition.

Workers' Compensation
March 1, 2020

We successfully prosecuted a termination petition on behalf of a national water company. After securing all prior medical records, the defense uncovered a past medical history of similar complaints and treatment, and a later fall that was not disclosed by the claimant. After questioning, the claimant admitted to the nature and extent of his prior treatment, including office visits, prescription medication and MRIs, which supported our contention that his prior complaints were virtually identical.

SIGNIFICANT REPRESENTATIVE MATTERS

Nathan Armstrong v. W.C.A.B. (Haines & Kibblehouse) – the court held that the filing of a Temporary Notice of Compensation Payable and Notice of Compensation Denial acknowledging an injury and no disability was sufficient acknowledgement of an injury for purposes of seeking a utilization review treatment.

Lane Enterprises, Inc. v. W.C.A.B. (Patton) – prepared an *amicus curiae* "friend of the court" brief
